## MAVEL, A.S. COMMISSIONS 270 kW FERGUS MILLS – FIRST NORTH AMERICAN INSTALLATION

Benesov, Czech Republic – 24 October 2006 - Mavel, a.s. announced that it has successfully commissioned its first installation in North America – the 270 kW site in Fergus, Ontrario owned by Fergus Mill Power Corp.

The Fergus Mill hydro electric power plant is on the site of a former mill in a historic town about 1.5 hours from Toronto. The former plant had been abandoned for decades when the Fergus Mill Power Corp, led by husband and wife team Murray and Karen Koebel began the process of relicensing and rehabilitation.

Mavel provided a double regulated bulb turbine with runner diameter of 1050 mm, three runner blades and 16 wicket gates. The turbine drives a horizontal asynchronous generator. Mavel also provide the hydraulic system, draft tube and other related equipment.

Mavel is a Czech Republic-based manufacturing and engineering company focusing on production of turbines for hydro-electric power plants from 25 kW to 25+ MW. Since its founding in 1990, the company and its CKD TurboTechnics subsidiary have installed over 290 turbines at more than 210 sites around the world.
